

# WELCOME

Thank you for purchasing our Forensic Science Kit!

We just know that you are going to have lots of fun with this kit, exploring fingerprints, looking for footwear marks, looking at your hair & clothes fibres under the microscopic torch, this torch is also great for the garden and inspecting minibeasts! The purple ultraviolet torch will uncover the things that you can't see and used with the invisible marker pen you can invisibly mark your own property such as your bike or phone for safekeeping.

So what are you waiting for?

It's time for you to become a detective and use your newly acquired 'CSI' skills and remember!

**"EVERY CONTACT LEAVES A TRACE"**
